

## 360° hot air circulation

The air fryer uses hot air circulation to cook food, which makes it a healthier choice compared to conventional frying. The cooking process is quite fast, while the food remains crispy and delicious.

## A large basket

Thanks to this Tesla air fryer and its large basket, you can easily cook enough food for your whole family, or a gathering of friends. Share those healthier, low-fat recipes with everyone!

## Temperature and time control

A LED touch screen makes it easy to control temperature levels (60 - 200°C) and cooking time: use one of the 12 preset programs, or customize settings to your needs and preferences.

## Automatic shut-off

Once you set the cooking time, the air fryer will automatically turn off when it expires. You can set the timer for up to 60 minutes.

## "Preheat" and "Turn food"

Use the preheat function to warm up the appliance or defrost food: a tone will sound when the preheating is done. In selected programs, this device can also periodically notify you when it's time to flip food over, for better cooking results.

## Useful features

This device is easy to clean, with non-stick coating, as well as a dishwasher-safe basket and a baking tray. It has overheating protection, and will also automatically shut down if the pot is removed.

Model	AF501BX
Capacity	5 L
Color	Black - Inox
Power	1300 W
Control panel	Digital
Touch screen	Yes
Temperature control	60-200°C (90F-400F)
Time control	0 - 60 minutes
Oil-free cooking	Yes
Preset cooking programs	12
Easy cleaning	Yes
Automatic shut-off when the pot is removed	Yes
Overheating protection	Yes
Food grade non-stick coating	Yes
Heating element	SUS304
Automatic shut-off	Yes
Cord length	90 cm
Product height	290
Product width	350
Product depth	340
Gift box height	350
Gift box width	350
Gift box depth	400
Weight	5,40 kg
Gross weight GB	6,00 kg
Number of devices in CB	2
Carton size (L x W x H) mm	705x420x424
Gross weight CB	12 kg
EAN	8606031244455
