Product Overview

Note: Illustrations of product, accessories, and user interface in the user manual are for reference purposes only. Actual product and functions may vary due to product enhancement.

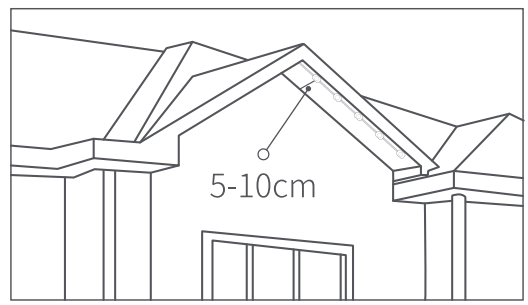

Installing Your Device

Before you install

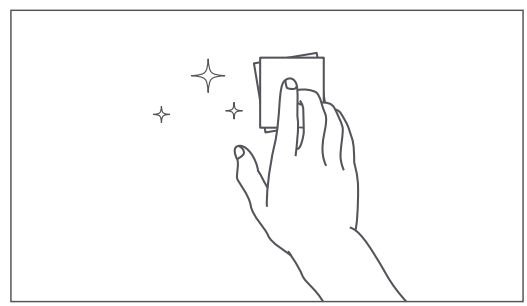

1. Unpack the box and check all items that are included.
2. Make sure to power on the strip light and confirm if it lights up.

Installing Steps

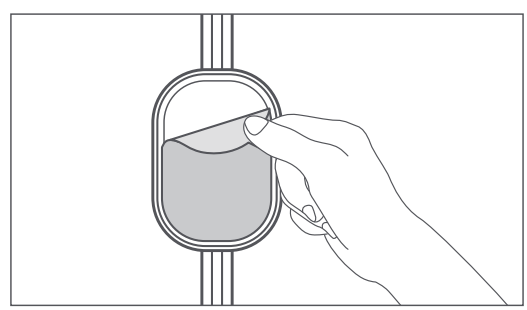

1. Install the string lights 5-10cm away from the wall surface.

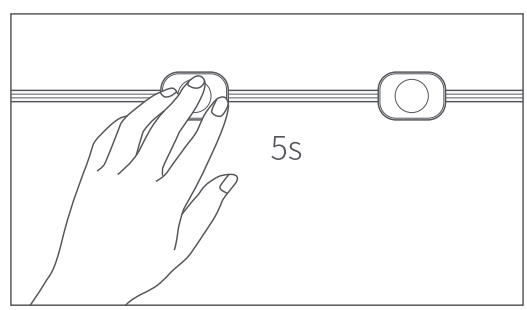

2. Clean the surface with a cloth or tissue before installing the string lights.

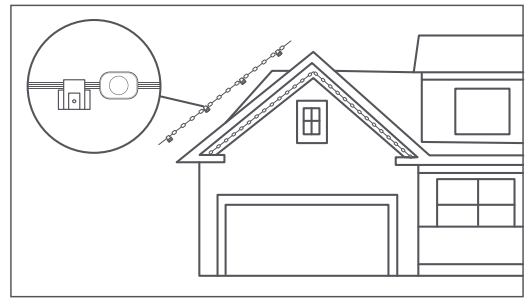

3. Remove the VHB gum backing from the lights.

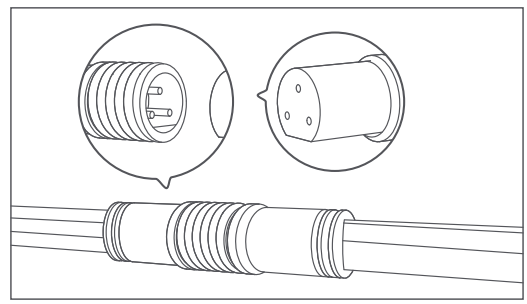

4. Press the lights firmly against the surface for at least 5 seconds.

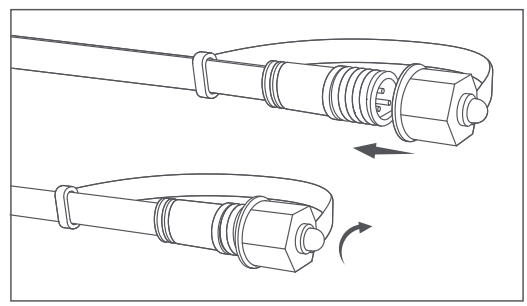

5. Secure each string light with 4 screw clips.

6. Connect two string lights using the waterproof connector and screw them in place.

7. Securely screw the waterproof connector cap onto the last section of string lights.

Device Resetting

Press and hold the Power button for 5 seconds within one minute after powering on the device. When the device breaths in blue light, it will start to restore the factory settings. When the light changes to rainbow streamer, it means that the device has been successfully reset.

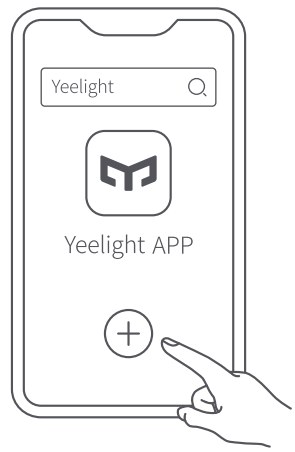

* When connecting the device to a new phone, you need to reset the device.

Pairing Your Device with Yeelight App

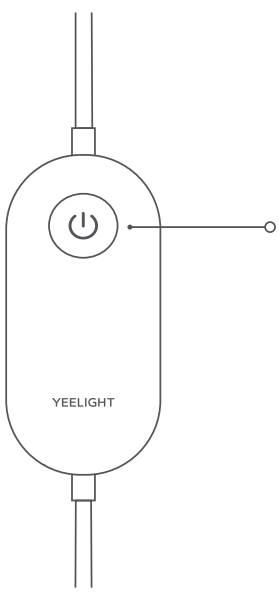

1. Download the Yeelight app from the app store（iOS devices）or Google Play（Android devices）.

Yeelight APP

2. Ensure that the device has been powered on and reset successfully.
3. Turn on Bluetooth on your smartphone.
4. Open the app and follow the onscreen instructions to complete pairing.

Description of Button Functions

Turn the light on/off.
Press once to turn on the light, then press again to cycle through four colors. Long press to turn off the light.

Specifications

Model: YLYDD-0044

Warnings & Cautions

Do not use the lightstrip when covered or recessed into a surface.
Do not bend the LED inside the lightstrip more than 90 degrees to avoid damaging the product.
Do not open or cut the lightstrip.
Do not connect parts of this lightstrip with parts of another manufacturer's lightstrip.
Interconnection shall be made only by the use of the supplied connectors. Any open ends must be sealed-off before use.
The LED lightstrip should be used with the provided LED driver only.
To prevent early product failures, the product should only be used in environments with a temperature range of -20° to 40°C (-4° to 104°F) .
The product is not water resistant, be cautions when installing and using.
Do not allow children to install the strip light alone.
Unroll the strip lights before powering on.
The light source of this luminaire is not replaceable; when the light source reaches its end of life the whole luminaire shall be replaced.
Under normal use of condition, this equipment should be kept a separation distance of at least 20cm between the antenna and the body of the user.
This lightstrip is not suitable for general indoor lighting, and can only be used for decorative purposes.

FCC Compliance Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Caution: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the

equipment.
This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada’ s licence-exempt RSS(s). Operation is subject to the following two conditions:
(1) This device may not cause interference.
(2) This device must accept any interference, including interference that may cause undesired operation of the device.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.
To satisfy FCC&IC RF exposure requirements, a separation distance of 20 cm or more should be maintained between the antenna of this device and persons during device operation.
To ensure compliance, operations at closer than this distance is not recommended.
Limited by local law regulations, version for North America does not have region selection option.

Supplier's Declaration of Conformity

Under FCC Part 15 SDoC procedure
